Name: XYZ

DOB: 22-11-2012

DOMINANT CHAKRA NUMBER= 4

2+2= 4 which translates to:

Heart chakra (emotions) + Heart chakra (emotions) = Be like a balanced Earth star chakra

Discipline your life tap into Mother Earth's energy and realize you already have what you want to have, it's just hidden in your energy just like your Earth star chakra, which is not physical but creates everything because it is the energy of metaphysical powers of the earth.

By default, you will be concerned with the aspects/qualities of these two things (chakra and planet).

Because you are majorly impacted by Earth star chakra (4), most of your decisions will be connected to:

- 1) Financial aspects (security too much money or insecurity, no cash flow for months)
- 2) Bloodline (challenges or support system)
- 3) Ability to discipline and trust others (blind trust or no trust at all)

You will be swinging between the extremes because that's what the Earth star chakra (Rahu) does when it's not in balance. Your idea is to balance them consciously by working on your spiritual discipline.

DOMINANT SOUL CHAKRA NUMBER= 2 (ruled by Heart chakra and planet moon)
Usually, you will notice that most of your challenges come in this area of life due to an imbalance in this chakra, the Heart chakra in your case.

Your soul wants you to have the positive aspects and live a balanced life from your heart chakra.

Despite the challenges you encounter, your soul wants you to grow from them and hence you are advised to do the appropriate remedies to create positive and balanced aspects of this chakra:

- Emotional stability and a sense of love and compassion
- Positive and fulfilling personal relationships
- Ability to give and receive love
- Openness and forgiveness
- Maintain good physical circulation of your heart by doing exercise that enhances well-being and immune system

2025 becomes $2+0+2+5= 9$

9 ruled by Planet Mars or Root Chakra

It means this year you need to act on making your root chakra balance consciously.

Especially if you notice you are falling behind or getting stuck in the negative qualities of the chakra (underactive, blocked aspects of chakra) or becoming extremely focused only on the positive aspects of the chakra and that is becoming a concern for you (Overactive chakra).

This is common for everyone but how your life is going to get impacted will be decided by your personal year calculation, so read on.

Your Personal Year of 2025 is ruled by number 6.
